Designed for outdoor or mobile settings, this hyper-flexible keyboard is easily packed away, cleaned with soap and water, and accessible whenever you need it. The keyboard is made with antimicrobial material that protects against germ buildups between washings. The keyboard has a USB interface that easily connects without having to install specific drivers. Aside from these practical features, the keyboard is made for smooth and quiet performance.

### ■ Antimicrobial

Made with antimicrobial material which prevents the growth of harmful bacteria and protects against the buildup germs between washings.

### ■ Durable Waterproof Design

The keyboard is wrapped with an advanced silicon material that will protect it against oil, water, and dust. The silicone material also offers the ability to remove germs with liquid disinfectants or soap and water.

### ■ Flexible & Portable

The lightweight, slim and compact design is perfect for travel, school and other industrial or medical environment.

### ■ Multimedia and Internet Hotkeys

Control your media player with one-touch using the builtin Multimedia Hotkeys. You can also navigate the Internet and access your emails with the built-in Internet Hotkeys.
